

## SafeScreen Pro

Protect employees and customers from airborne contamination

- Simple to assemble and quick to install, no measuring required.
- Provides an effective yet simple barrier against germs spread by talking, coughing or sneezing.
- An economical covid-19 solution manufactured in the UK.
- Strong magnetic fixings combined with self-adhesive pads provide stability and reliability.
- Clear plastic allows employees to communicate and minimises disruption
- Flexible – shields can be positioned to suit desks of different shapes and sizes.
- Ideal for use in offices, receptions, restaurants, schools and more.
- Screens are 100% recyclable.
